

REMARKS

Claims 1-33 and 40-47 are in the application.

Claims 1-24 are allowed, and claims 42 are allowable, and claim 41 is objected to.

Claim 40 has been amended to recite the features of claim 42 specified in the Office Action in paragraph 24, and is believed to be allowable on that basis. Likewise, claims 25, 43 and 45 are amended to recite these features.

Claims 25, 40, 42-43, 45, have been amended to eliminate reference to "steps".

Claim 33 has been previously amended to recite a "physical" medium, and is therefore believed to be patentable. In particular, the defect alleged in paragraph 16 of the Office Action is not present, since the computer readable medium is both physical and tangible, thus excluding a mere signal from within its scope.

It is respectfully submitted that the application is now in form for allowance.

Respectfully Submitted,
